possibly the greatest game ever made. Love it you can import your own pictures to this game. Spent many hours on it so far..
The game has little content.
The developers threw this game and gave us the opportunity to add content.
I consider it a waste of time.
It was necessary to do it right away!

Why should I add content instead of you? Where will I get it? I can not draw. According to you I have to steal someone else's content on the Internet? Which is copyrighted!. <https://www.youtube.com/watch?v=4Fbry0X7OmM>. [A simple game and the achievements are really simple. They may take a little bit of time to 100%, but you just need to solve alot of puzzles.](#)

[And you can import your own images, so I did a simple white background and put numbers \(1-24\) so I could just simply order them in the correct order quicker \(on 24 bit puzzle\).](#)

[I would recommend the game for people that just want more achievements or a really simple time waster.. A lot of fun. Wish that the puzzle pieces were traditional jigsaw style. But that is a minor complaint. The original artwork is awesome and being able to extend it with 100 of your own photos is a double bonus. The most fun you can have with one hand and one PC. :^\).](#)
[Love it you can import your own pictures to this game. Spent many hours on it so far.. Got a stiffy](#)

Nice puzzle game, with the opportunity to import own pictures.
Music is relaxing and the DLC comes *free*.
You can divide your puzzle into 6 to 100 pieces, and the game has a panic button (lol).
However, the achievements don't count (yet) due to the new steam policy.
For the price and the free DLC, I'd say it's worth buying.

Update Description: free DLC is on the shelves. Add 10 beauties.:

3????????DLC????10?????????. **Update Description: sound effects can be turned off, optimizing MP3 and JPG import.:**
Sound effects will now decrease with BGM.

Optimized MP3 import and slowed down the program accident caused by super MP3 import.

After pressure testing, it is found that hundreds of pictures will cause the game to crash. In order to relieve the pressure of computer hardware, the following restrictions are imposed on the introduction of picture functions.

Not read below 300X300 and above 1920X1080.

File size exceeds 350kb not read.

JPG identifies 100 pictures at most.

No longer recognize PNG.

Although there are 100 restrictions, players can continuously update their gallery through batch replacement.

And importing old maps can still inherit the medals and the total score.

For your hardware security, please forgive me!. **In the DLC trial, 10 girls will be added free of charge.:**
In the DLC trial, 10 girls will be added free of charge.

Because the style of the painting is not very inconsistent, it has been released separately for free in the form of DLC.

The preview can see second videos in the trailer. It is expected that the audit will be completed within 3 days.

This game can batch import your favorite pictures!!!

Super cool new experience! Let's try it!

I hope you have a good time!
